在同一位置上打三個結，  
以防鬆脫

Tie three overlapping knots at the same spot to  
prevent loosening of the floss

4

前後拉動牙線，慢慢地  
將它滑進齦溝內

Using a back and forth motion, gently slide  
the floss towards the gum between two  
teeth.

5

將牙線緊貼牙面，上下  
拉動

Wrap the floss around the adjacent tooth  
surface tightly. Slide the floss up and  
down the surface for a few times.

6

再將牙線緊貼另一個牙  
面作同樣動作，重複以  
上步驟直至每個牙面都  
清潔為止

Repeat the motion on the adjacent tooth surface  
of the other side. Repeat the process until each  
adjacent tooth surface has been cleaned.
