

**What is David eating  
tonight?**

**At a clean autumn night, parents took their children for a walk in the park after dinner.**

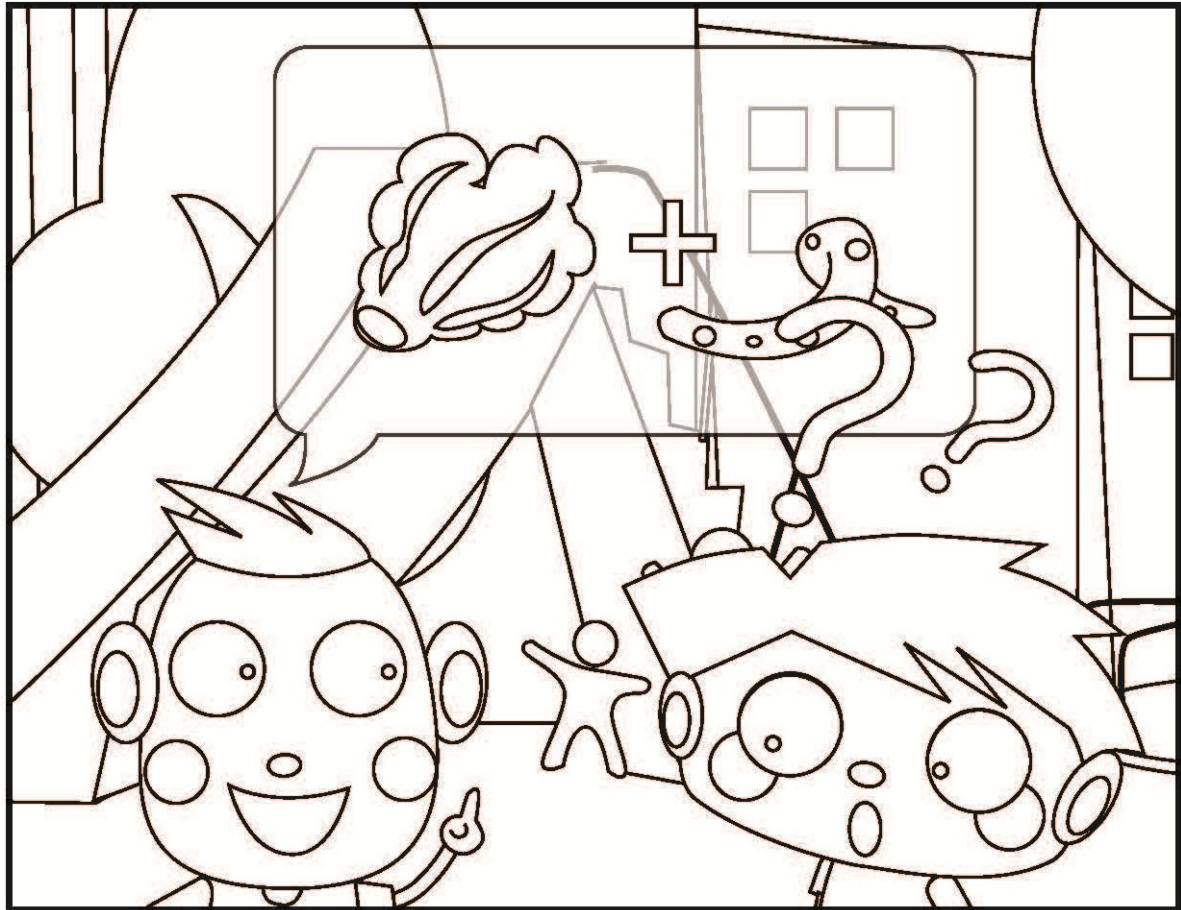

**David and his parents also went to the park for a walk. He came across his friend, Fred, and joyfully went up to say hello.**

**After Fred had greeted David he suggested, “Why don’t we play a game!” “What game?” asked David. “A Sherlock Holmes game. I can guess what you ate for dinner tonight,” said Fred.**

**” Can you really guess? Come on! Quickly tell me what I ate for dinner tonight,” said David with great curiosity.**

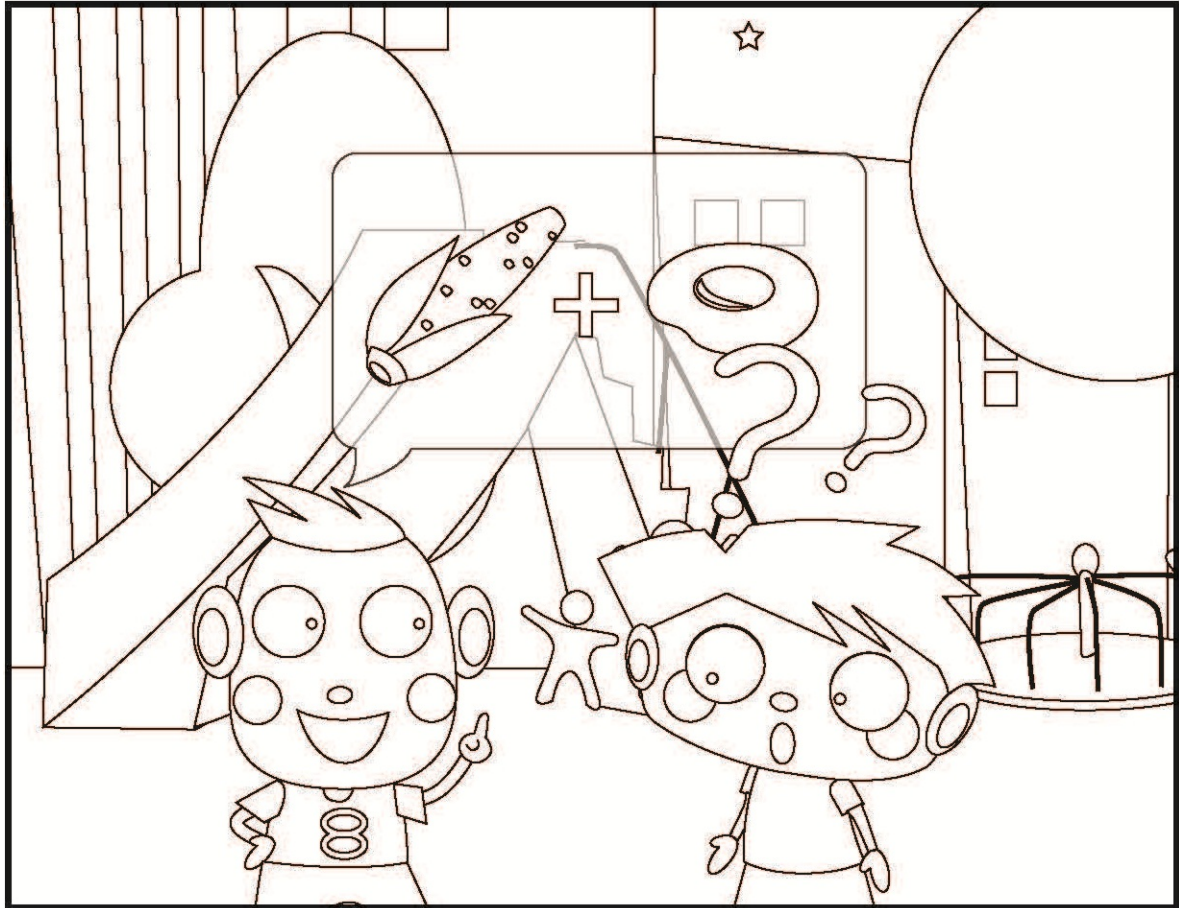

**“Hmm! You had cabbage and squid for dinner tonight, right?” Fred said after he pretended to think.”**

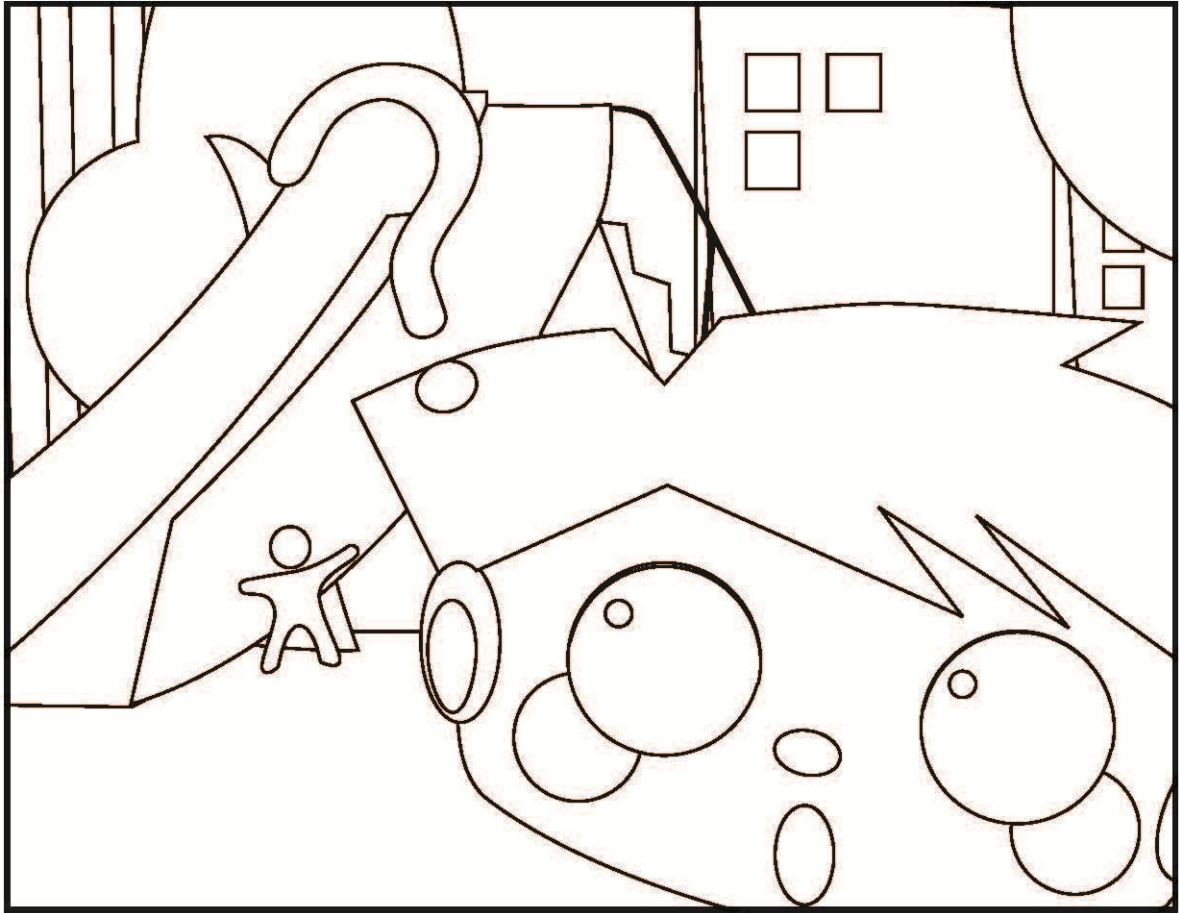

**How do you know? I don’t believe you’re that good. We’ll do it again tomorrow night.” David said surprisingly.**

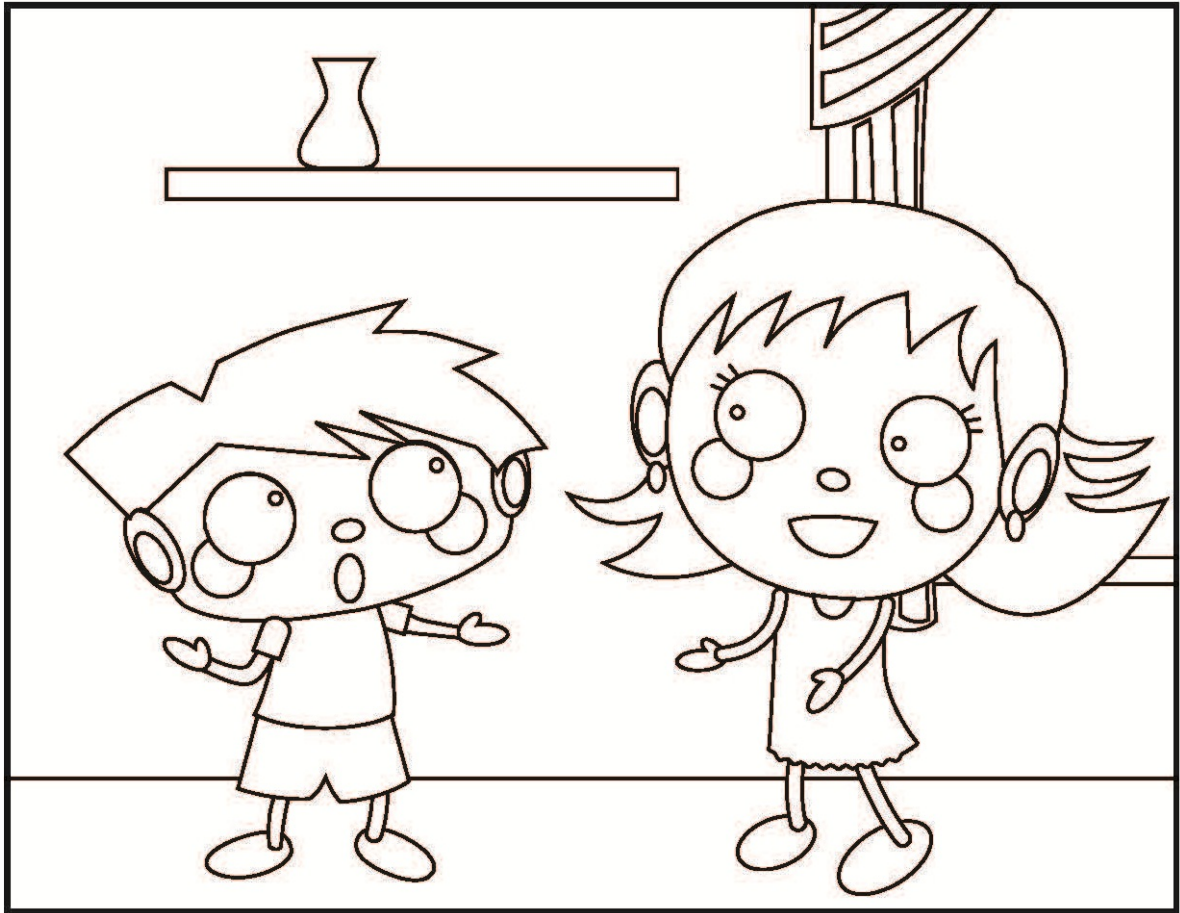

**The next following day, parents took their children for a walk in the park after dinner as usual.**

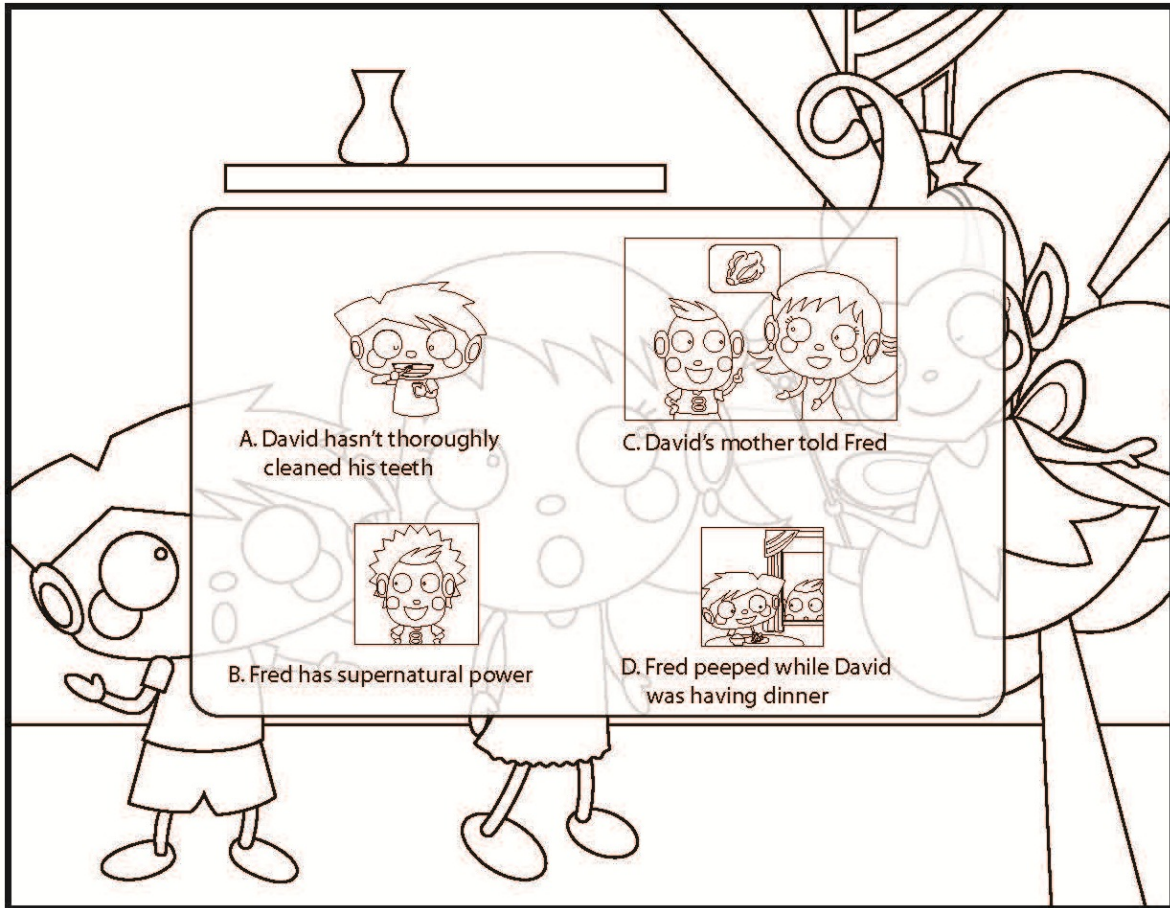

**Fred saw David, and again pretended to be Sherlock Holmes and said, “Hmm! You had corn and eggs today, right?”**

**David was in awe. “How did he know? Wow, no way! He knows everything that is going on at my home.” He thought to himself.**

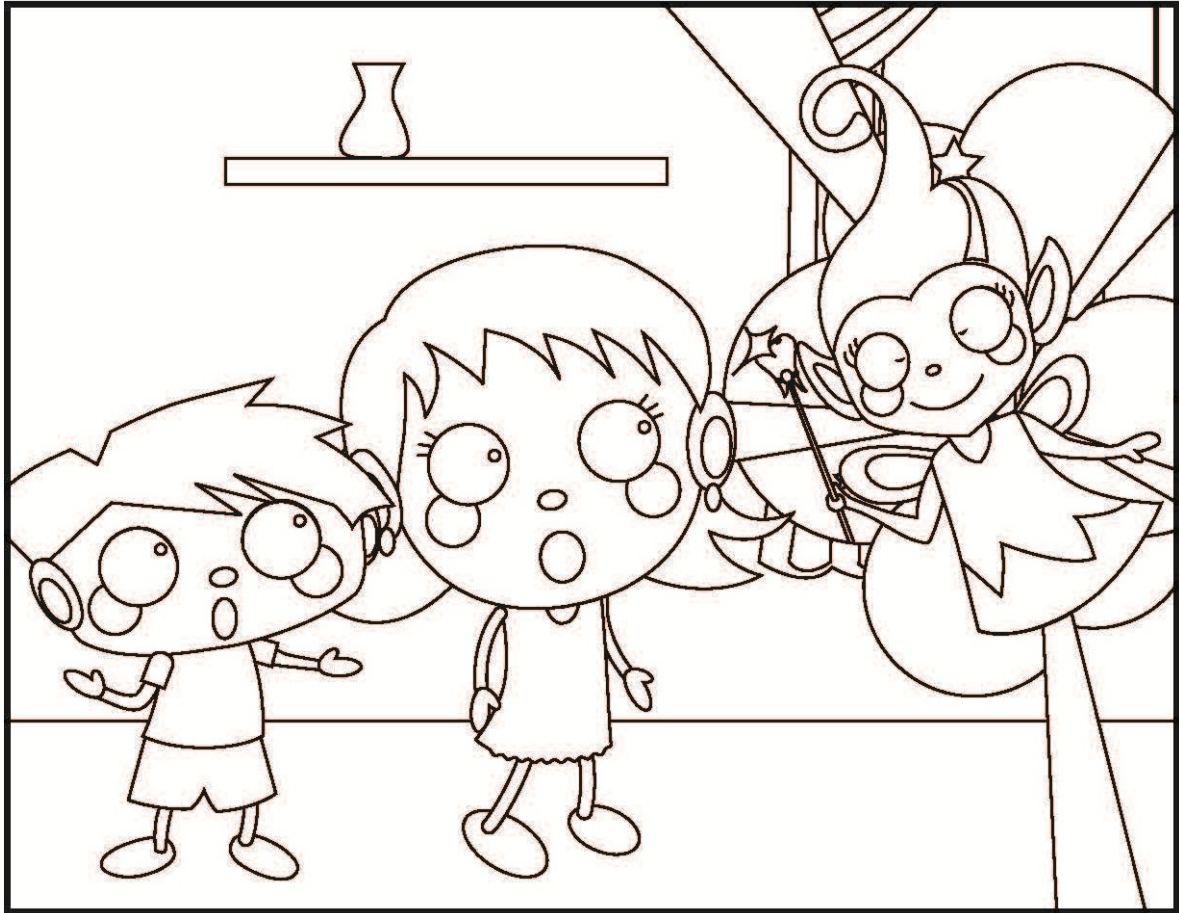

**David told his mother in fear. She also thought it was very strange.**

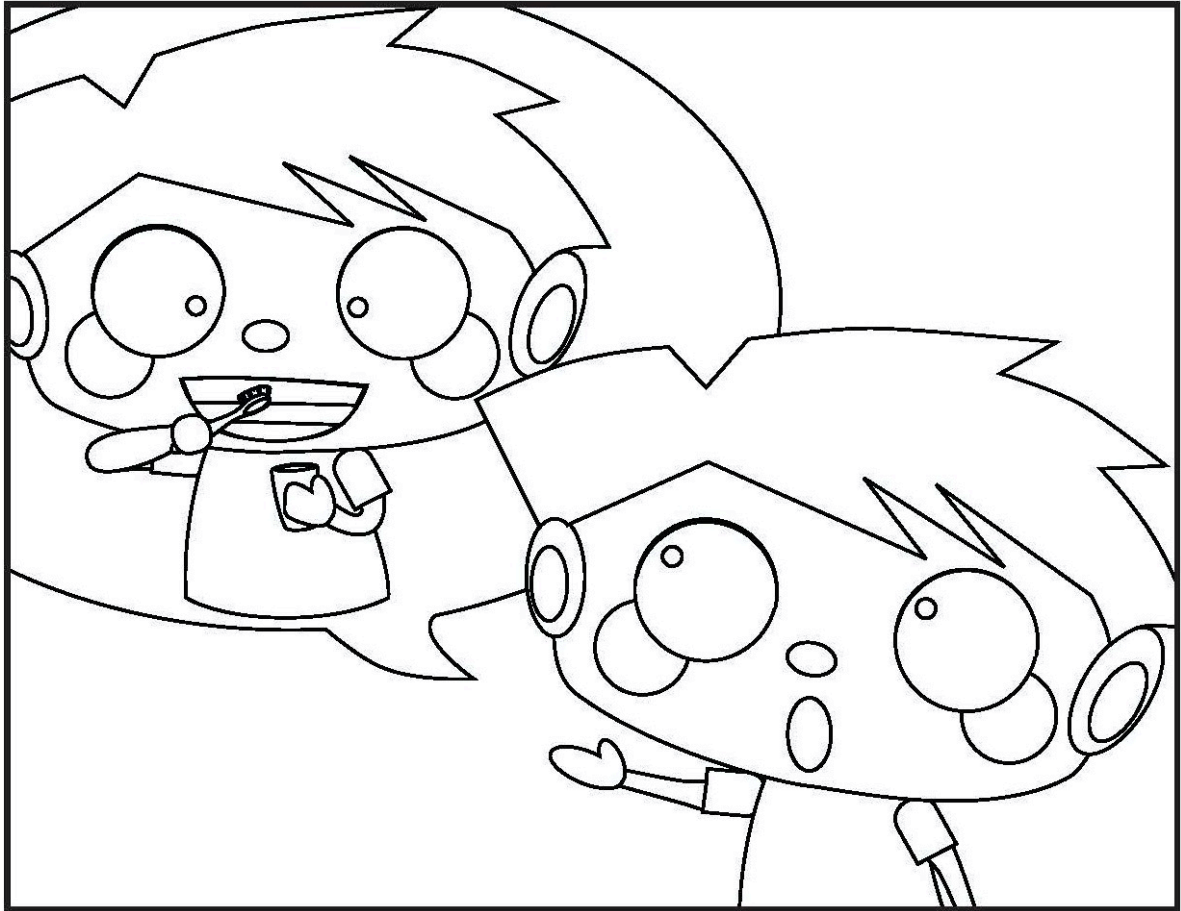

**Question:** Children, can you guess how Fred found out what David had eaten?

**Answer:**

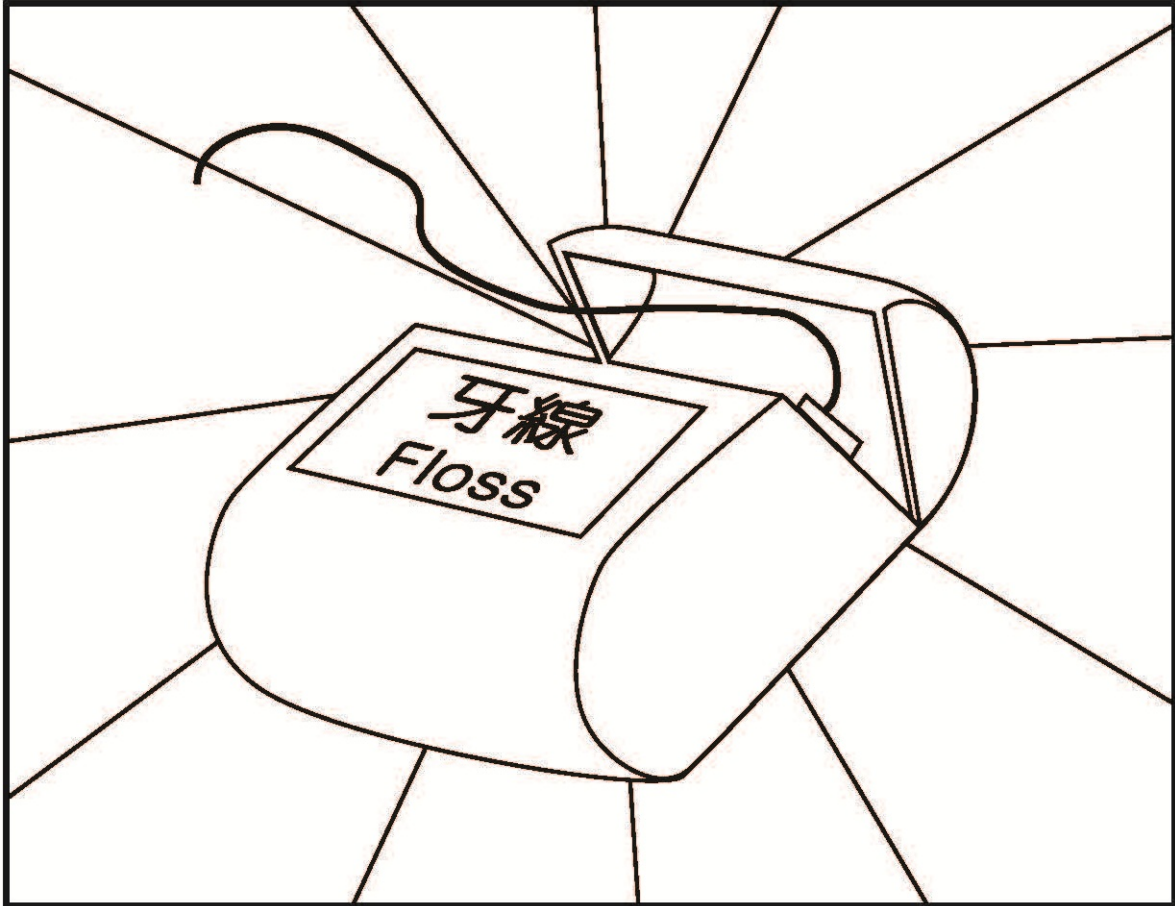

- A. David hasn't thoroughly cleaned his teeth
- B. Fred has supernatural power
- C. David's mother told Fred
- D. Fred peeped while David was having dinner

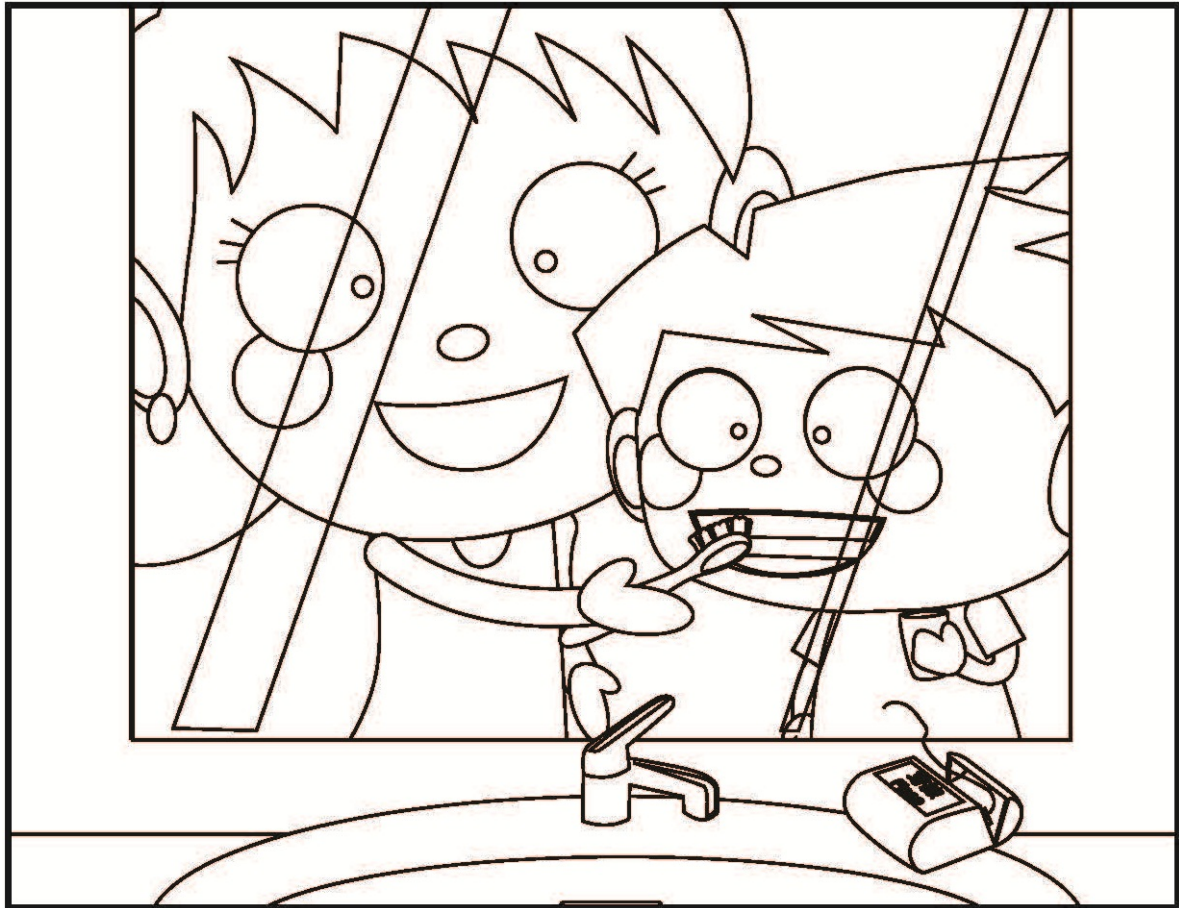

**At this time, Tooth Fairy appeared and said to them, “This is because David’s teeth are not clean, and food debris is still on his teeth. When Fred sees it, he knows what David has eaten.”**

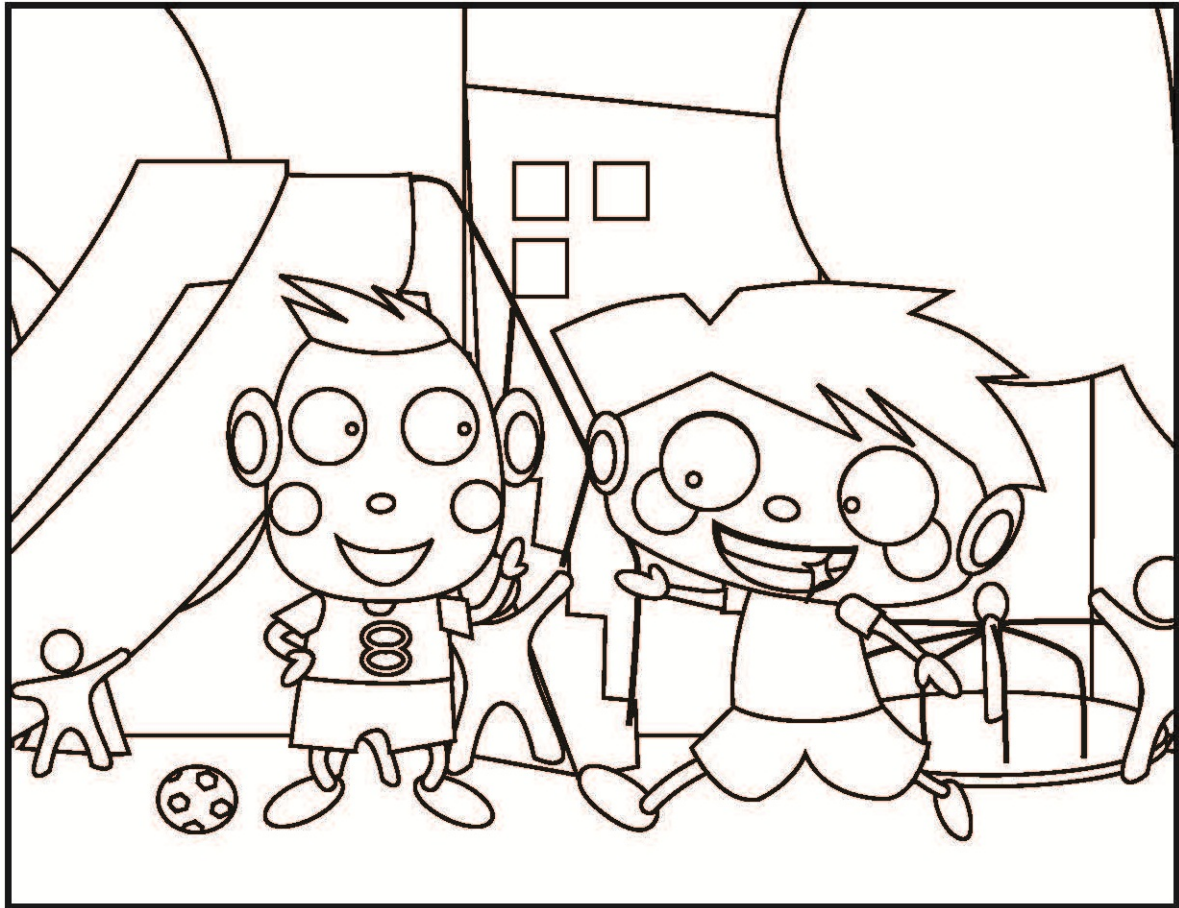

**“But I brush every morning and evening!”  
said David with a surprise after he had  
heard the Fairy.**

**You cannot thoroughly clean your teeth by brushing only. You should also ask your parents to help you floss to clean the adjacent surfaces of your teeth.**

**Therefore, David's mother followed Tooth Fairy's advice. She brushed for David every night, and also helped him to floss the adjacent surfaces of his teeth before bringing him for a walk in the park.**

**David ran in front of Fred. “Now, what did I eat tonight?” David confidently said.**

**“Hmm! Tonight, you had...” Fred looked at David’s clean teeth and could no longer guess. “I can’t guess!” unwillingly said Fred. David happily ran back to his mother, and told her the story in joy.**
