

# **The Little Benny visiting a Dentist**

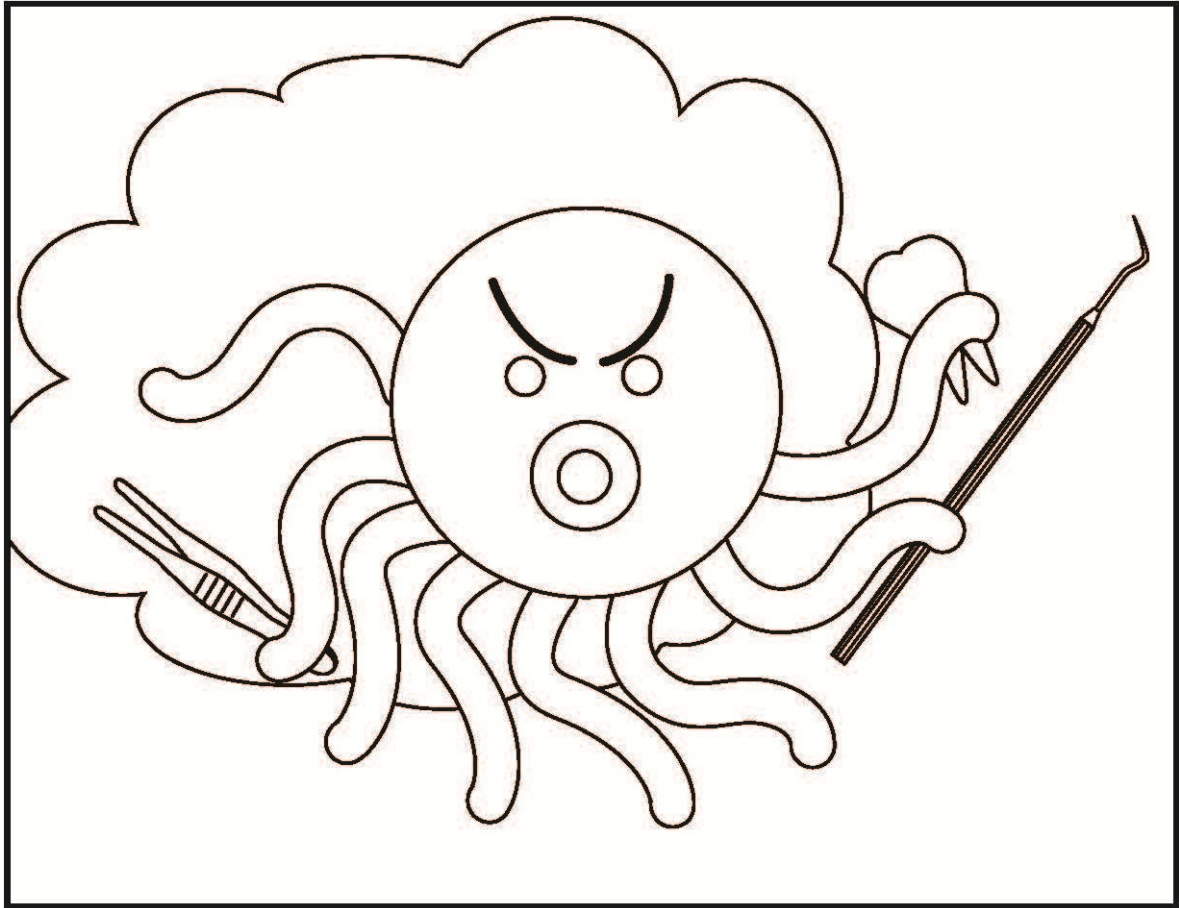

**One night...**

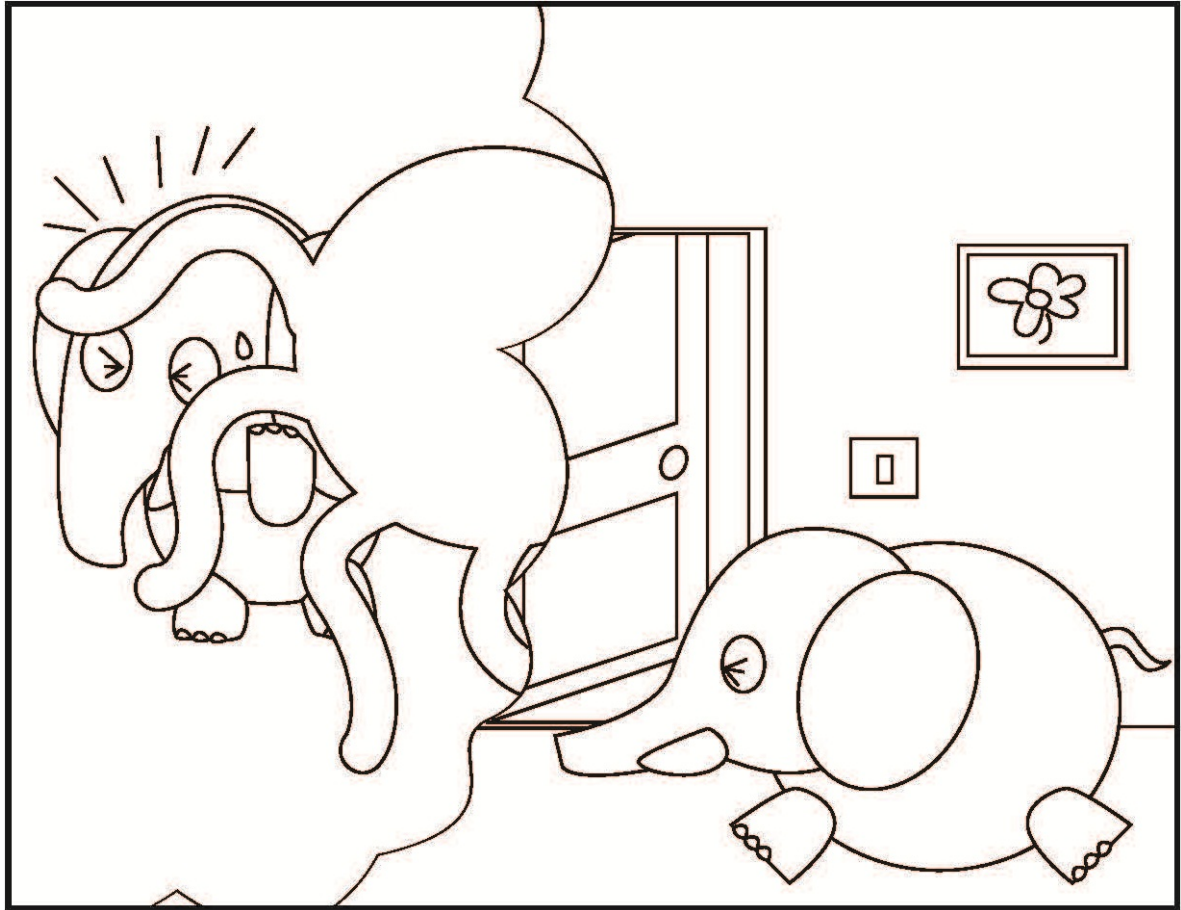

**Little Benny, the Little Elephant, passed by his father and mother's room and heard, "We need to bring Little Benny to the dentist for a check-up this Sunday."**

**Little Benny was terrified after he had heard it, and recalled his classmate, Chu Chu, had said...**

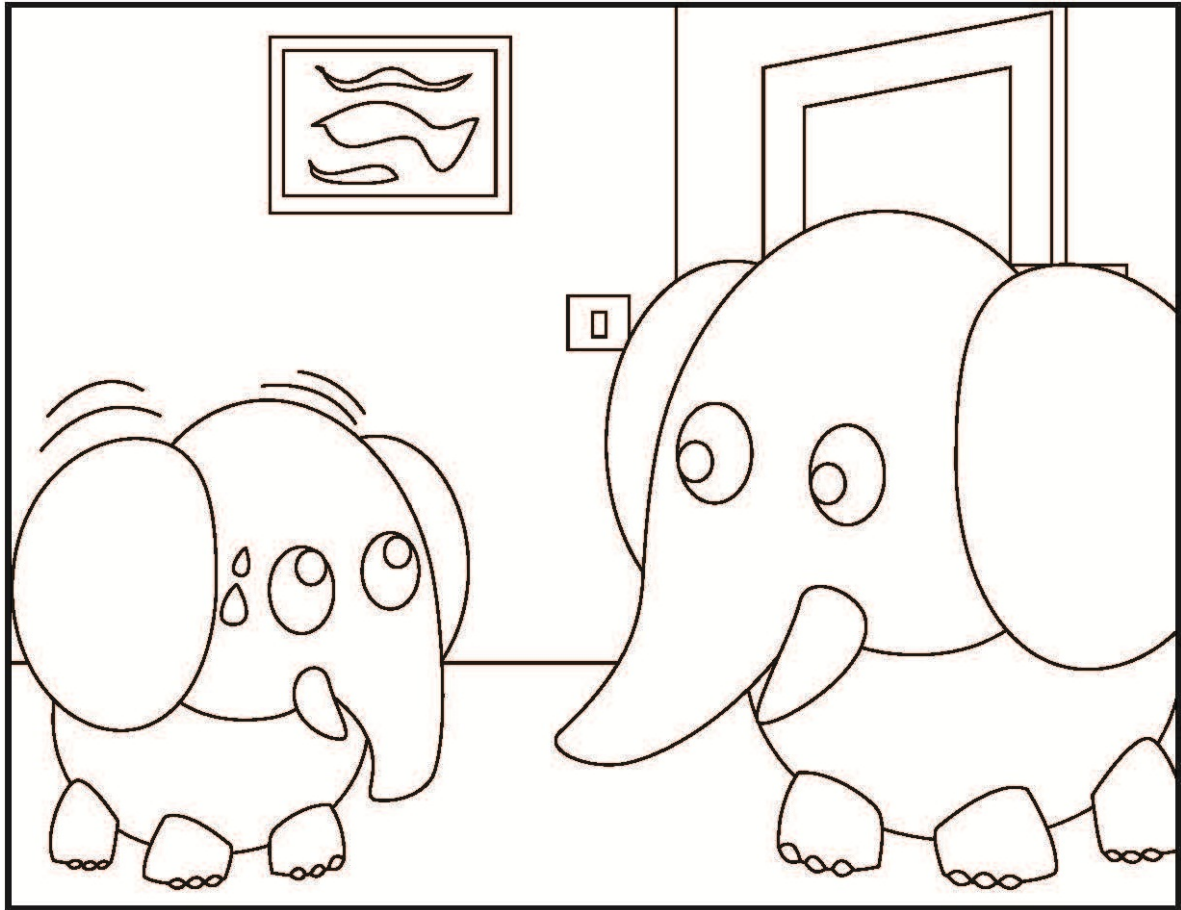

**“Dentist has many arms just like an octopus, and each arm holds a different dental tool. It’s very scary!”**

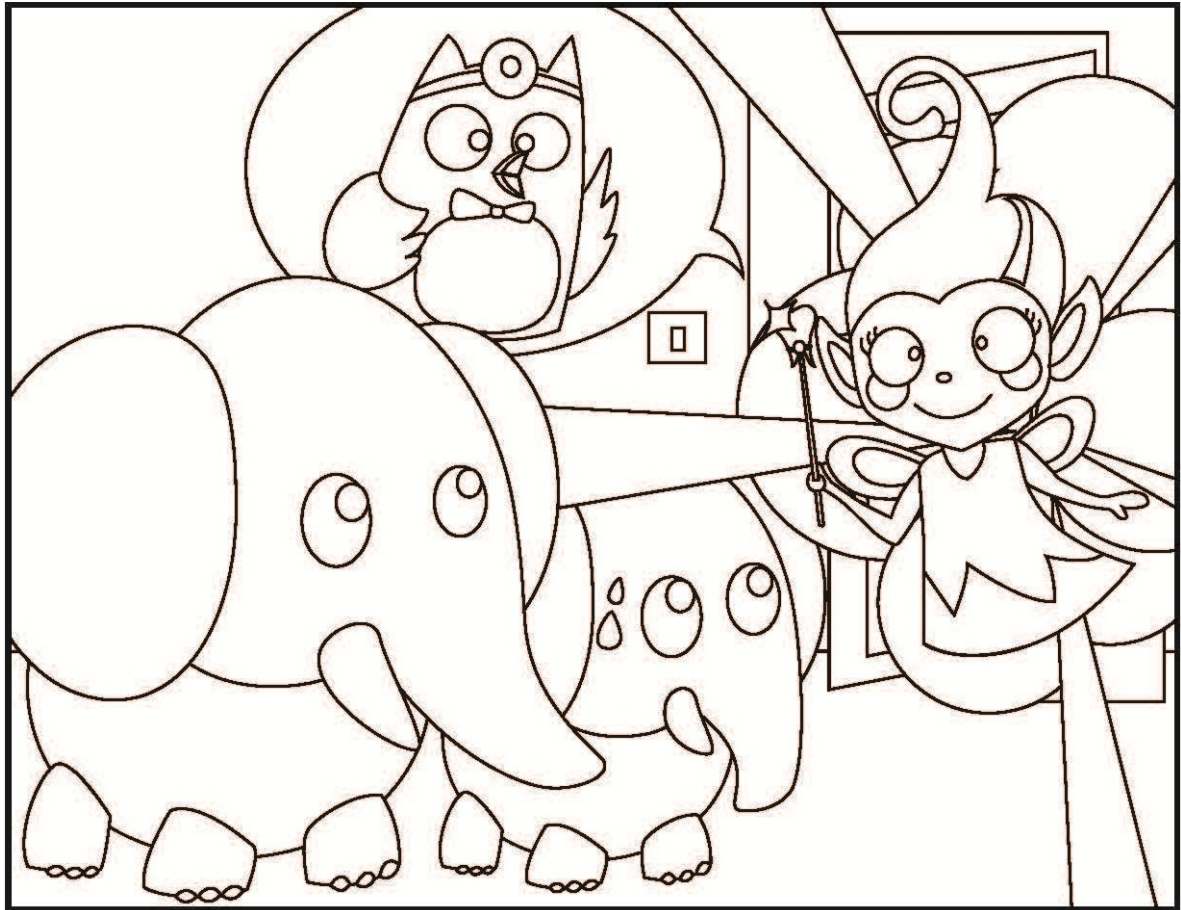

**The more Little Benny thought about it, the more terrified he got. He quickly closed his eyes, opened the door and ran into his parents' room.**

**Once Little Benny opened his eyes, he kept shaking his head and immediately told his mother, “Mom, Mom! I don’t want to see a dentist. He has 3 eyes and 8 arms! He’s very scary!”**

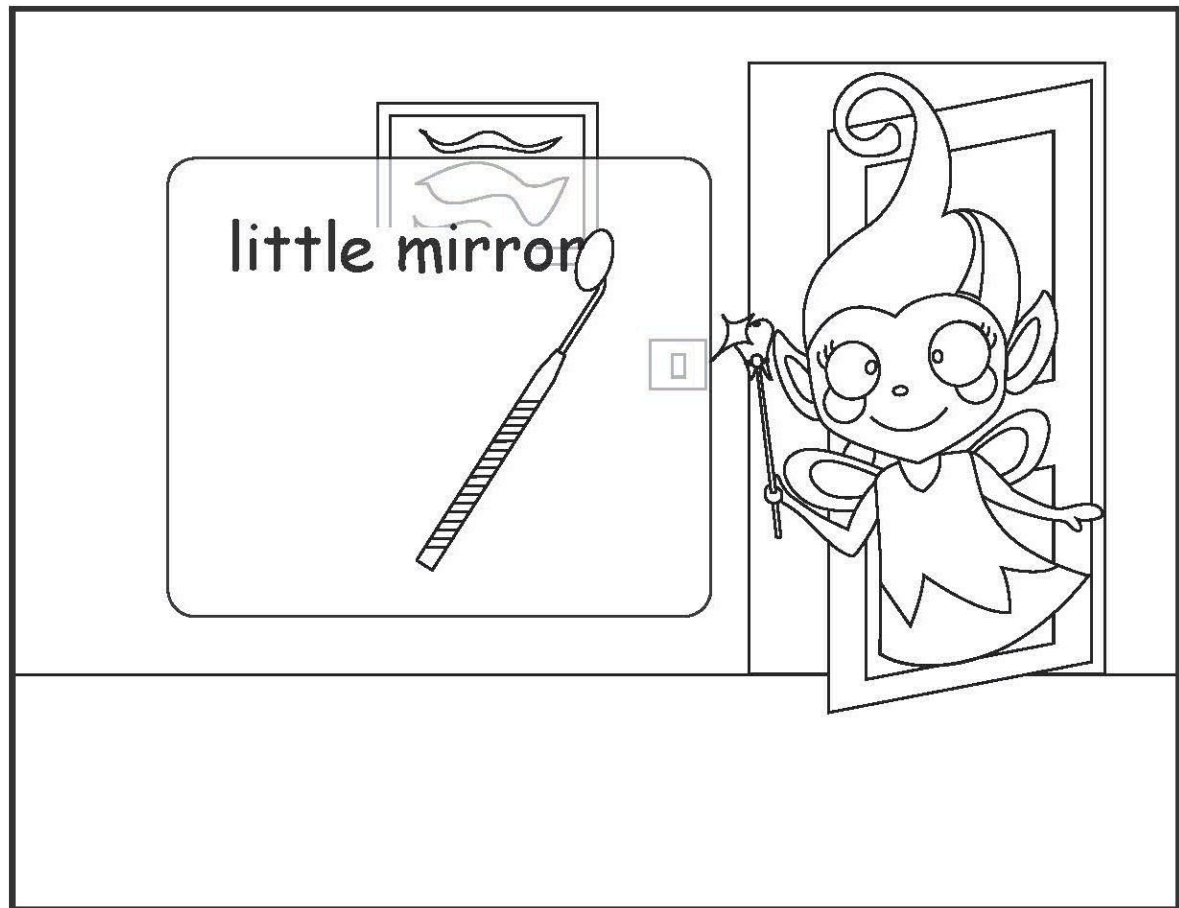

**At this time, the Tooth Fairy suddenly appeared. “There is no need to be afraid, Little Benny. Uncle Dentist is not scary, and he’ll even be your friend, ” said the Fairy.**

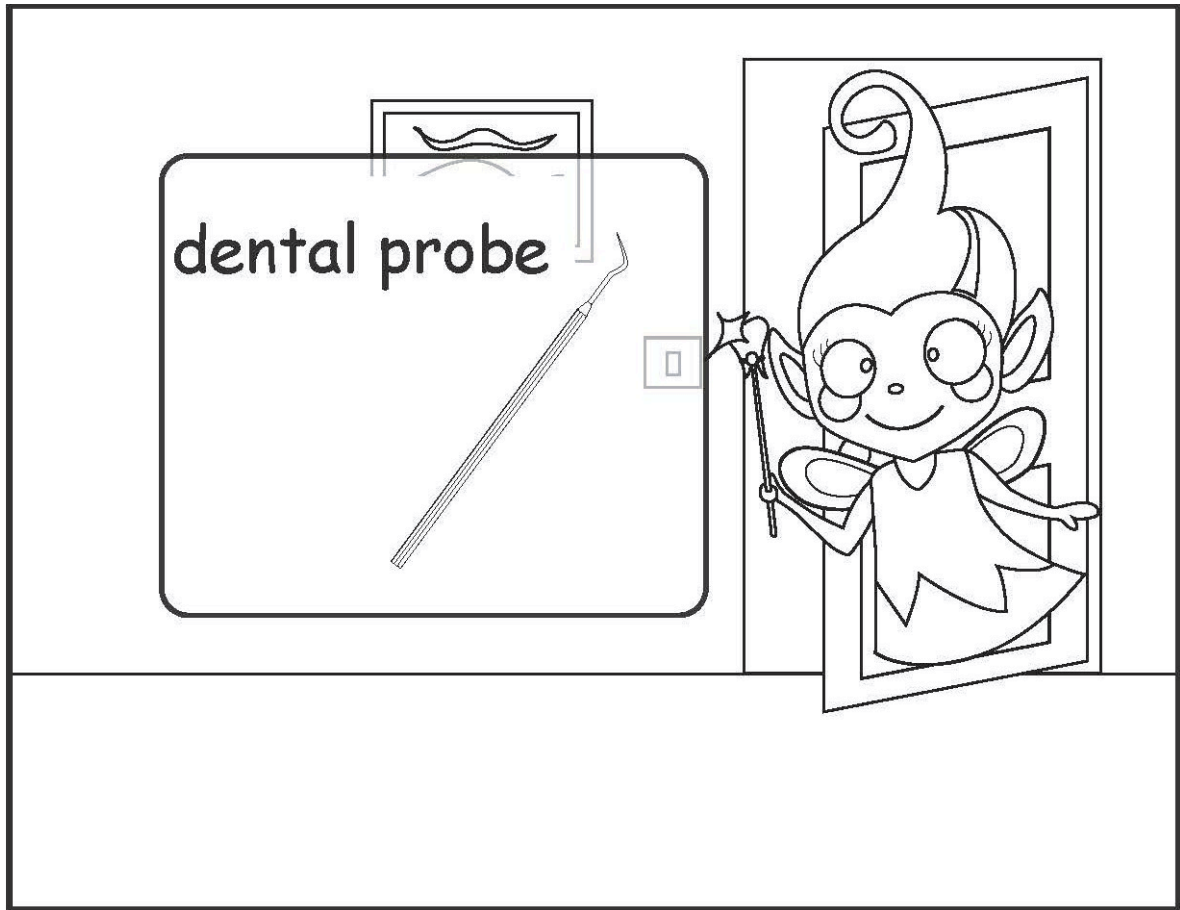

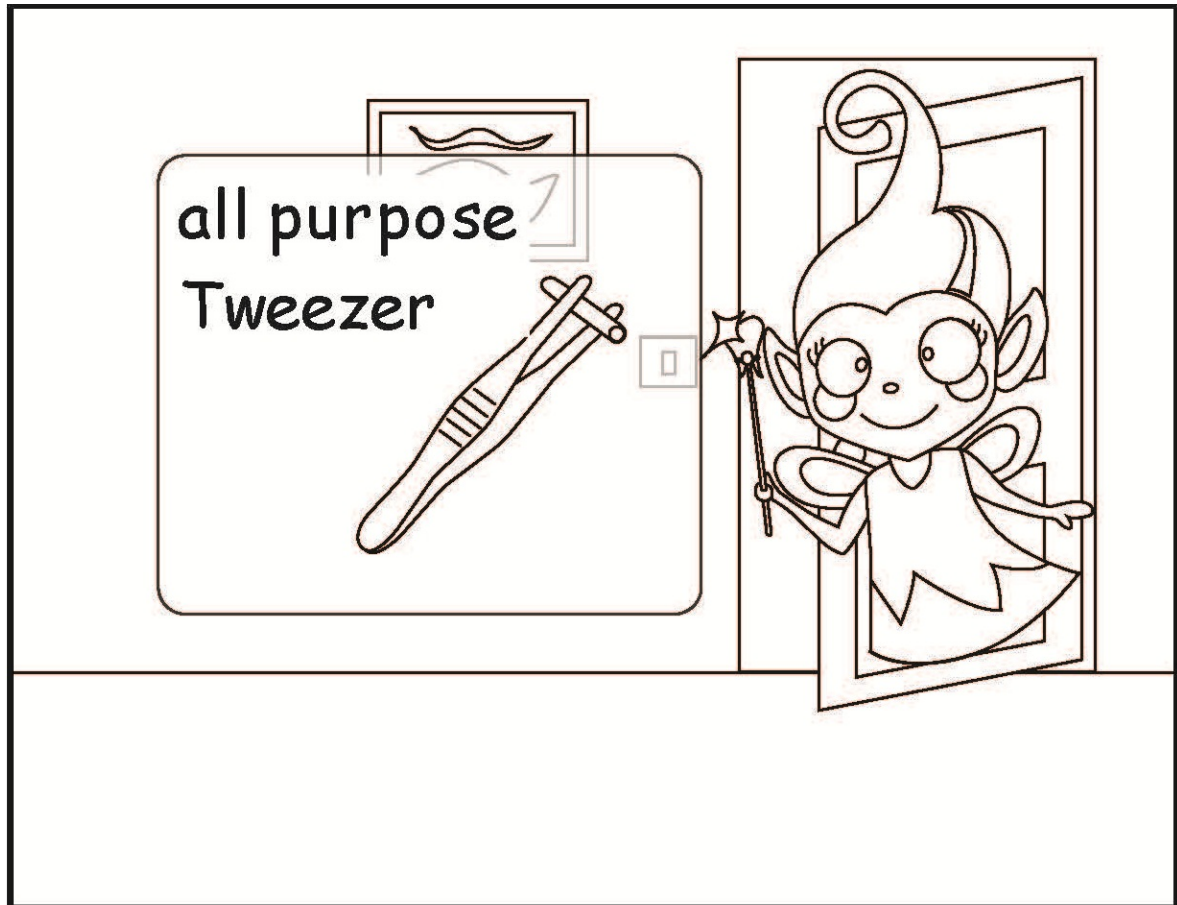

**Children, dentists will use these tools to check your teeth. Please click on the picture on the top, and I will introduce the name and function for each tool.**
